

DOUBLE SERVICE FOR GRADUATES

COMMENCEMENT EXERCISES BY INTERMEDIATE AND ALSO CERRITOS SCHOOL

PROGRAM PLEASING

VARIED TOPICS CHOSEN BY SPEAKERS; LIST OF THOSE GIVEN DIPLOMAS

Graduation exercises for the grammar schools of the city of Glendale were held last night in the Intermediate school auditorium in the presence of a large number of students and parents.

Fifty-five students were graduated from the Intermediate school and eleven from the Cerritos avenue school.

The program opened with the Intermediate school orchestra playing the class march. Then came a number by the girls of the graduating class.

Marcella Webb discussed "The Japanese Problem."

Mae Sullivan then gave a paper on "Why Every Young Person Should Have a High School Education. She was followed by Edith W. Bayley with a talk on "Great Engineering Projects of California."

Program Is Varied One
"The Development of Man" was the subject for a paper by Leslie S. Lavelle, after which was a piano solo by Leonora Rose.

"The World War" was the topic chosen by Marion M. Morrison and "Vocational Training" was that taken by Frances T. Duryea.

An interesting subject was that of Roland F. Hodder, who spoke on "Some Events That Took Place in Wilson's Administration."

"Transportation and Communication" was the subject chosen by Marjiam P. Whitten and she was followed (Continued on Page 4)

GIVES LUNCHEON

MISS AGNES HARRISON HOLDS PLEASANT AFTERNOON FOR MRS. L. VICTOR SEYDEL

Miss Agnes Harrison, 214 East Chestnut, gave a two-course plate luncheon yesterday in honor of Mrs. L. Victor Seydel of Grand Rapids, Mich., who is the guest of Mrs. Col. Briggs of the Glendale sanitarium. The rooms were beautifully decorated in yellow and purple, acacia bloom and de Bouganville being used.

The afternoon was very pleasantly spent in conversation, Mrs. Seydel telling of her work as vice grand regent of the D. A. R., which necessitated visits to all parts of the country.

Mrs. Ella W. Peirce and her son, John W., who are studying the old missions, gave many interesting bits of information regarding these, also.

Those in Attendance
Those present besides the hostess and guest of honor, Mrs. Seydel, were Mrs. Ella W. Peirce and John W. Peirce of Chicago; Miss Pearl Jones, Pittsburg, Pa., who is a guest of Miss Harrison, Mrs. Flora Price and son Donald of Eugene, Oregon; Mrs. Allie Sletes of Ingewood.

A beautiful basket of roses, violets and greenery which constituted a centerpiece for the decorations was greatly admired by all. This was a present to Miss Harrison by Miss Pearl Jones.

MILK REDUCED

DROP OF 2 CENTS WILL GO INTO EFFECT FEBRUARY 1, IT IS ANNOUNCED

Welcome news to householders will be the announcement from milk dealers of a price drop of 2 cents a quart for raw and pasteurized milk, bringing the price down to 16 cents. Corresponding reductions will be made in cream and buttermilk. The new prices go into effect February 1.

GETS ITALIAN ART TREASURE
NEW YORK—In the "gold room" of the Metropolitan museum of art has just been placed one of the great treasures of Italian art. It is a wonderful ceiling painted in 1509 by Pinturicchio, noted for the action of his subjects and the brilliancy of his color. The ceiling was supposed to be lost for centuries, having been covered by another one 100 years after its completion.

WM. M'ADOO TO MAKE SURVEY IN MEXICO

(Special Service to Glendale Evening News)
KANSAS CITY, Mo., Jan. 29.—William G. McAdoo is going to Mexico at the request of President Obregon to make a general survey of the railways, oil industry and general economic situation in that country, it was announced today by William Kemper, receiver for the Kansas City-Mexican and Orient railroad. It is believed the former railroad administrator is interested in completing that road to the Pacific coast.

LOS ANGELES, Jan. 29.—William G. McAdoo left today for Mexico City it was said at his Beverly Hills home.

PRESIDENT-ELECT GOES ON FISHING TRIP

(Special Service to Glendale Evening News)
MIAMI BEACH, Fla., Jan. 29.—Arriving at the southernmost point of his Florida cruise, President-elect Warren G. Harding deserted his houseboat, Victoria, for a few days' fishing.

He will get his fishing tackle together today and go to a deserted island near by.

STATE DEPARTMENT IS ASKING FOR REPORT

(Special Service to Glendale Evening News)
WASHINGTON, Jan. 29.—The state department, it was announced today, requested Major General Allen, commanding the American forces on the Rhine for a report of the alleged attempt to kidnap Grover Cleveland Bergdoll in Germany and the reported imprisonment of Americans said to have made the attempt.

LOCK EMPLOYEES IN ROOM AND ROB BANK

(Special Service to Glendale Evening News)
DETROIT, Jan. 29.—Four bandits robbed a branch of the American State bank of Detroit today and escaped in an automobile with \$14,000. The highwaymen locked two employees in a rear room and knocked a third unconscious when he resisted them.

HOLD RECEPTION

INFORMAL GATHERING GIVEN THURSDAY AFTERNOON FOR MRS. C. M. CALDERWOOD

An informal reception in honor of Mrs. C. M. Calderwood, wife of the new Congregational minister, and her mother, Mrs. Hanscomb, was given at the home of Mrs. A. S. Chase, 400 Riverdale Drive, Thursday afternoon.

Mrs. Hartley Shaw, Mrs. Minnie C. Patterson and Mrs. E. D. Yard assisted Mrs. Chase in receiving. About fifty ladies were present. Three beautiful vocal solos were given by Mrs. Hartley Shaw.

Mrs. Calderwood was the recipient of a plecteuous shower of canned fruit and jellies.

Refreshments Served
At the close of the afternoon the guests were invited by the hostess to repair to the dining room where a repast of doughnuts, coffee and cheese was served from a beautifully decorated table at which Mrs. Patterson and Mrs. Yard presided, assisted by the two Misses Schuyler, Miss Alvord, Miss Chase and Miss Frazee.

CREATING LAKE

RECENT HEAVY RAINS PROVE OF GREAT VALUE BEHALF OF WATER PROJECT

There was thirty feet of water in the lake Devil's Gate dam is expected to create, after the recent heavy rain storm.

It is stated that between two and three years of average rainfall will be required to make a lake of the depth planned.

MAN DIES AT AGE OF 119

UKIAH—Patrick Healey, 119 years of age and believed to have been the oldest man in California, died here after a short illness. Healey who was born in Ireland, March 17, 1802, came to America in 1840. He resided in California during the past sixty-nine years. The Rev. Father Sebastian of this city on visiting Ireland recently verified Healey's birth record. Healey boasted of never having been sick. His mind was keen and active until death.

TARS BRING PARROTS TO SELL
NEW YORK—Rarely does a ship come in from Central or South America or from Africa but Italian stevedores jump aboard to make offers for any parrots the members of the crew may have brought. Old-time tars always bring up one or more of the gay birds, for which they pay about \$1.25 in the southern continents and get \$10 to \$15 here.

CLOTHING STOLEN

ED KERRI'S ROOM IS VISITED BY BURGLAR; SUIT CASE ALL THAT'S LEFT

Ed Kerri was surprised when he went to his room in the California apartments after work last evening to find his large suitcase in the middle of the floor partly packed. Investigation revealed that a burglar had visited the room and stolen most of his clothing. Two suits of clothes, one of them used by Kerri as a member of the Elks' patrol, several silk shirts, a small hand bag and other articles were taken.

The suit case was evidently considered too large to get away with. All that was left to Mr. Kerri was the suit he stood in. He said he never dreamed burglars would be so bold as to raid apartments as public as the California.

Last night Detective Shy of Los Angeles telephoned out to Glendale police headquarters that he had picked up, in a raid, an ex-convict, who had on his person a bank book on which was the name "Ed Kerri, Glendale." Shy asked if they had any report of a theft from such person. He was answered in the affirmative, so he said he would hold the man and asked that Kerri come in this afternoon to see if he could identify some of the property the culprit had in his possession. Of course he will comply.

TAKES OUT BUILDING PERMIT

Mrs. May B. Hupp, who built and sold three or four handsome bungalows on North Isabel, took out permits yesterday for one of three rooms at 515½ East Wilson avenue, to cost \$1000, and another of two rooms, to cost \$1000, and another of two rooms to cost \$500, at 519½ East Wilson avenue. Mrs. Hammond is building a house of three rooms at 324 Howard, \$1200; Henry Christiansen a garage at 827 South Verdugo Road, and Anna Lee Manson a garage at 437 West Dryden. Permits for the month now total 129,333.

STOP SNUFFLES OF GIRLS

WELLESLEY, Mass.—A coryza closet to snuff the snuffles and nip the colds of Wellesley college girls is to be installed at Founders' hall, it has been announced. The Coryza closet is an airtight little room, lined with zinc and filled with the healing and disinfecting vapors of eucalyptus oil and formaldehyde. When a student feels a sneeze coming she will rush into the wee compartment, shut her eyes, take a few deep breaths, utter a class yell and the pulmonary menace will vanish.

A census showed that 341 girls out of 367 had suffered from colds during the last twelve months.

MUSIC PROGRAM PROVES SUCCESS

SECTION OF TUESDAY CLUB HEARS PLEASING NUMBERS FRIDAY AFTERNOON

TALK IS ALSO GIVEN

MISS EDITH GRAHAM SPEAKS ON CORRECT BREATHING; DISCUSSION HELD

That music hath charms was again and again demonstrated at the meeting of the music section of the Tuesday Afternoon club, which was held at the home of Mrs. C. F. Parker, 221 North Central avenue, and of which Mrs. E. J. Cunningham was hostess on Friday afternoon.

The program was almost wholly made up of numbers given by members of the section and was not only delightful but inspiring, and was as follows.

Piano selections—Beethoven's Sonata Allegro and Adagio, Mrs. Leroy Bosserman.

Vocal duet, "Oh Lovely Night," Mrs. C. A. Parker and Mrs. A. M. Draper, accompanied by Mrs. L. N. Hagood.

Vocal selections, "Dawn" (Pearl Curran), and "As You Pass By" (Kennedy Russell), by Mrs. Lumpkin.

Piano solos, dance (Sacarmakoff) and Fantasie Impromptu (Chopin), by Mrs. L. N. Hagood.

Vocal solo, "Chant of the Star" (Margaret Hoberg), by Mrs. C. A. Parker.

Talk on Correct Breathing
Miss Edith Graham, an instructor of music, gave a splendid talk on "Correct Breathing" and demonstrated in a surprising manner the effects which would result to the benefit of humanity if more thought and time were given this important practice.

Mrs. Charles Marlenee, curator of the section, presided at the meeting, and a general discussion of the particular kind of affair to be given in order to secure funds for the club building was carried on.

Mrs. Alexander Saslavsky was present and spoke on the importance of chamber music.

Refreshments were served during the social half hour. Those assisting Mrs. Cunningham were Mrs. C. F. Parker, Mrs. O. E. Von Oven, Mrs. Cole and Mrs. Lillian Dow.

LIGHT METERS

INSTALLATION IS ORDERED IN THREE HOUSES COMPLETED AT FACTORY GROUNDS

Light meters were ordered installed yesterday in the three houses just completed on the grounds of the Menely window shade factory at Vine avenue and San Fernando Road, families being ready to move in.

James A. Evans gave the order for 1626 North San Fernando Road, Mrs. David Sloan for 1628 and Charles E. Clancy for 1630. Other similar installations ordered were by Mrs. C. R. Hallet, 2005 Kenneth Road; John Esterley, 436 Oak; C. J. Letts, 450 West Lexington Drive.

LEAVES FOR EAST

MRS. F. C. WELLER IS HOSTESS FOR MISS M. STUDEBAKER, NOW EN ROUTE HOME

Mrs. F. C. Weller of 310 East Wilson avenue entertained at luncheon recently in honor of Miss Marguerite Studebaker, who has been the guest of Mrs. A. W. Canfield of Verdugo Road and left for her home in New York City Thursday.

The guests were Miss Marguerite Studebaker, Misses Betty and Margaret Gregg and Mrs. W. E. Lee. Mrs. Weller had as her guest Tuesday, Mrs. F. D. McCoy of Los Angeles.

S. O. S. CLASS HOLDING MEETING

The S. O. S. class is holding its meeting at the home of Mrs. A. A. Smith this afternoon for the purpose of initiating three new members, the candidates being Misses Naomi Lucas, Evelyn Walker and Orrell Hester. Following the conferring of the honors of membership upon the new subjects all will enjoy especially prepared games until 4 o'clock when oyster stew will be served; which will be a befitting climax of a thoroughly enjoyable afternoon.

TWO PROMINENT FIGURES IN KIDNAPING CASE ARE KILLED IN AUTOMOBILE CRASH

(Special Service to Glendale Evening News)
LOS ANGELES, Jan. 29.—An automobile crash at dawn today snapped out the lives of two prominent figures in the Mrs. Gladys Witherell abduction and injected a new element of mystery in the baffling Hollywood kidnaping case.

The killed, who were members of a gay party returning from the Venice country club, were:

Mrs. Lita Westrem, 28, stenographer for O. F. Witherell, whose young wife was spirited away Tuesday night and is believed to be held by kidnapers who refuse to free her unless a \$50,000 ransom is paid.

Charles Beverly, 30, a former business associate of Witherell, and said to be a sweetheart of Mrs. Westrem.

A Los Angeles railway car crashed into the automobile, dragging it almost 125 feet. The two were killed outright. Two others in the tonneau were severely hurt, Harry Glazier, 27, who suffered a fractured skull which may result fatally, and Miss Mary Wuttemberg, 21, who came here from San Francisco about a week ago. One leg was fractured. Glazier's address is given as 4025 Hobart boulevard, Los Angeles.

Beverly and Mrs. Westrem, it became known after the tragedy, have been constantly watched by detectives ever since Mrs. Witherell's disappearance. Beverly is said to have severed business connections with Witherell following a quarrel in which he is alleged to have threatened Witherell.

PROTEST MADE ON JAPANESE AGREEMENT

(Special Service to Glendale Evening News)
WASHINGTON, Jan. 29.—The agreement between Ambassador Morris and Ambassador Shidehara of Japan created a situation that is "intolerable" and will be resisted in every legitimate way by the people of California, Senator Hiram Johnson of California declared today.

While Johnson was attacking the agreement Secretary of State Colby was conferring with President Wilson at the White House for the first time since the secretary left for South America about six weeks ago. It was expected that the Morris-Shidehara agreement would be discussed during the conference.

ALLIED AGREEMENT TO BE SIGNED TONIGHT

(Special Service to Glendale Evening News)
PARIS, Jan. 29.—The allied agreement fixing the amount of German reparations will be signed at 6 o'clock this evening, Premier Briand of France announced today, following a conference with other members of the supreme council.

SOCIAL IS HELD

MOCK WEDDING IS FEATURE OF PLEASANT GATHERING OF C. E. LAST NIGHT

The Intermediate Endeavorers of the Presbyterian church gave a social in the church last night, which provided great fun for all present. It was a box social and the beautifully decorated boxes sold well, netting about \$25 for the building fund of the new church house.

A program had been prepared by the boys, consisting of games and a mock wedding. The latter feature proved to be most clever and amusing.

Howard Brown, superintendent of the society, was the bride, Paul Edmonds the bridegroom, Carroll Anderson bridesmaid, Vivian Taylor best man, George Stanley flower girl, Ganier Cox ring bearer, Stephen Fairchild was the officiating clergyman.

The costumes were fearful and wonderful to behold. The ring, a doughnut, was brought in on a wheelbarrow. The bride's bouquet was a cauliflower.

Between thirty-five and forty Endeavorers were present.

CORRECTING STREET NUMBERS

The work of correcting wrong street numbers and of assigning numbers to unmarked territory is about completed by the city engineer's office. All of Selvas de Verdugo and Grand View districts are now numbered, as is San Fernando Road its entire length. On the latter the mixup at the S curve is straightened out at last, Heinmiller's place, which was formerly 541, is now in the 700 block and the short stretch east of it which had been given an east and west numbering, in the 500s is now in the 700s south. Numbers on Grand View avenue begin at 1000 and will eventually reach as high as 2000. The largest number on South San Fernando Road is in the 1900s and the largest one north will be in the 1700s.

WEATHER FORECAST

LOS ANGELES, Jan. 29.—The official weather forecast: Tonight and Sunday fair. Heavy frosts in the early morning.

GLENDALE LOSES

LOCAL HIGH SCHOOL TEAM LOSES BASKETBALL GAME IN LAST MINUTE

Glendale high school basketball team was defeated by Citrus high school team yesterday afternoon on the local court in the last minute of play. The defeat cost Glendale its chance to win the league pennant.

Up to yesterday's game, Glendale had won two games and lost one in the league schedule. To win the pennant, the local squad would have had to have annexed yesterday's contest.

It was a close contest throughout. First one team led, then the other. Glendale had the score standing 15 to 14 in its favor a minute before the game ended. Then Citrus snapped a basket—and took the contest with the score of 16 to 15.

Members of the local team are Dennison, McNary, Cline, Colburn and Goertz. The squad put up a real fight, but lost because of the Ohio-like finish of the orange pickers.

WEDNESDAY CLUB

MRS. WILLIAM GIBSON OF 518 EAST WINDSOR ROAD, GIVES WELCOME TO GUESTS

The Wednesday club held its regular meeting at the home of Mrs. William Gibson, 518 East Windsor Road. The regular members present were Mrs. Jack Hearnshaw, Miss Clara Ringert, Mrs. H. L. Clotworthy, Mrs. Charles Sanders, Mrs. Charles Freshman of Los Angeles, Mrs. A. J. Muhleman, Mrs. Charles Glover, Mrs. William Nash, Mrs. G. D. Roach and Mrs. Gibson. The special guests were Mrs. J. I. Wernette, Mrs. C. A. Kaighen, Mrs. Carrie Howe and Mrs. John Todd of Santa Maria, who has been the house guest of Mrs. Gibson for the past week.

The home of Mrs. Gibson was decorated with yellow acacia blossoms. At noon a cafeteria luncheon was served, after which the ladies spent the afternoon in needlework.

DECISION GIVEN AGAINST LOCALS

GLENDALE HIGH SCHOOL IS DEFEATED IN DEBATE BY HOLLYWOOD TEAM

PROGRAM IS GIVEN

LARGE CROWD IS PRESENT TO HEAR ORATORICAL BATTLE; CONTEST IS CLOSE

One of the largest audiences ever to attend a debate in Glendale was present at the high school auditorium last night when Hollywood high defeated Glendale high, the subject of the debate being, "Resolved, That the State of California Adopt a Code Similar to That of Illinois."

Both Glendale and Hollywood had excellent showings of rosters. The affirmative was upheld by Glendale and the negative by Hollywood.

Graduate Introduces Speakers
Jack Jenkins, graduate of Glendale high and formerly a member of the debating team, addressed the audience and introduced Joe Rhodes, who rendered several vocal selections which were greatly applauded. He then introduced the speakers: Paul Hutchinson of Glendale, Miss Elizabeth Hobbs of Hollywood, Francis Reed of Glendale and Joseph Walker of Hollywood.

A vocal solo was given by Miss Dorothy Perrett at the end of the debate while the judges were reaching a decision. The judges were Leslie B. Henry, Prof. Mark Horton and Professor Gilliland. Their decision was in favor of Hollywood, 199 2-3 to 177 2-3.

BUILDING PLANS

H. M. BUTTS TELLS OF BLOCK TO BE ERECTED, CORNER BRAND AND HARVARD

H. M. Butts, of the Monarch Auto Supply company, calls attention to an error in yesterday's publication in that it is stated in a news item that Architect A. F. Priest is drawing plans for a business block to be built for him. The error consists in that the building in question is not for Mr. Butts personally, but for the Monarch Auto Supply company.

Two fine store rooms will be constructed 5½ feet wide each by 115 feet deep and with ceilings high enough to allow a mezzanine.

Creditable Structure
The Monarch will occupy the corner and will rent the other room. With the splendid edifices already on Brand boulevard and elsewhere in Glendale as evidence of Mr. Priest's architectural ability, a creditable structure may be expected for so prominent a corner as Brand and Harvard.

TEACHER RESIGNS

MISS GERTRUDE MALLORY OF LOCAL HIGH SCHOOL NOW IN HOLLYWOOD WORK

Miss Gertrude Mallory, teacher of English, algebra and journalism in the Glendale high school, has resigned to take a position in the English department of the Hollywood high school.

Miss Mallory has had three years' service in the local high school and students have expressed great regret at her departure. She assisted in the issuance of the school's publication, acting as chief advisor to the staff for the past two years. Paul Webb, of the high school staff, will be her successor in this work and Miss Heirgrove has taken charge of the English classes.

HERE FOR VISIT

HARRY W. CHASE COMES FROM RANCH FOR SHORT STAY; BACK ABOUT MARCH 1

Harry W. Chase came up Wednesday from Potrero, near San Diego, where he and his family had been enjoying country life at the ranch home of his brother, Frank. He expects to go back next Monday, but will return to Glendale to stay about March 1, he says.

Mr. Chase says he has done nothing but eat and sleep since he has been away. He is very much improved in appearance.

DAY OR NIGHT

Glendale 1901 109 1/2 S. Brand

Philadelphia has established a sepa-
rate court for dealing with bandits.

PERSONALS

Mrs. Richard L. Phister of 1432
Valley View Road has as her guests
Mrs. John D. Elder and sons Richard
and Donald of Niles, Mich.

Mr. and Mrs. Ed M. Lee of 345
North Belmont street have as their
house guests Mrs. L. Johnson of New
York City, Mrs. Jeannette Chandler
of Spokane, and Mrs. Lillian Acres
of Des Moines.

J. O. Stevenson, who has the con-
tract to direct the reorganization of
the Glendale Chamber of Commerce,
addressed the Fillmore Chamber of
Commerce last night and was awarded
the contract to reorganize that body.

J. J. Wernette, a brother of J. L.
1330 North Louise, accompanied by
their mother, Mrs. John Wernette,
arrived from Grand Rapids, Mich.,
yesterday, to spend a few months
with their Southern California rela-
tives.

The fifth well to be sunk at the
city pumping plant on San Fernando
Road is now down over 100 feet and
drilling will be carried to 300 feet or
more, until water unctured with iron
is struck. The city is very wisely
adding to the water supply steadily
to meet the amazing increase in popu-
lation.

City Marshall Lampert wishes The
Evening News to warn people against
attaching posters, pictures and the
like to trees and poles in the park-
ways and streets of the city as such
action is not only a violation of the
law but gives the city a bad name
for slovenliness. The police prompt-
ly tear down all such things as soon
as they see them, but naturally over-
look some.

The Glendale City Teachers' club met Tuesday afternoon at the Intermediate school building for a business session. After the business had been transacted, the educational bills now before the legislature were discussed and explained by Mr. Lockwood of the high school. Miss Carrie Noble presided in place of the president, Miss Clara Micalf, who was unavoidably absent.

Among the moves of the past ten days were those of A. W. Brown from 1154 North Columbus avenue to 340 West Wilson avenue, J. F. Winnard from 449 Palm Drive to 461 Riverside Drive, Allen McDaniel to 910 Orange Grove avenue, C. M. Frazier to 458 West Broadway, James Whaley to 1210 East Lexington Drive, G. T. Mark to 126 Boynton, A. C. Lane to 1207 South Maryland avenue, H. H. Harshman to 440 Palm Drive.

Ralph Staub, some of whose thrilling adventures while taking a series of films in Alaskan shows have been narrated in The Evening News, arrived at home last Tuesday and is now with his parents at 1211 East Harvard. He had to walk 100 miles through the snows over a dog trail to "end of steel," as it is called, where he took the train for Seward, the port of embarkation. Some rough weather was experienced on the way down, but not a great deal. Mr. Staub will remain at home for some time to develop his pictures.

There is employed in the Los Angeles Trust & Savings bank, Glendale avenue branch, R. E. Berry, and at the Brand boulevard branch of the same bank his twin brother, Ralph Berry. The fact is that these two young men look so nearly alike that patrons of the banks who are not familiar with the circumstances have wondered how it could be possible for the Boulevard branch Berry to get so quickly to the Glendale avenue bank, believing that there was just the one Berry instead of two.

Two burglaries were reported last night to the police. A. E. Bagley, 400 Salem, said that the rear screen door had been slit and entrance effected that way. Considerable men's and women's apparel, two watches and a number of other articles were taken. Mrs. Wm. Harkleroad, of 1022 Virginia Place, was the other victim and whoever entered her house seemed to have been searching for money, only, as some valuable furs, a diamond ring and the silverware were untouched, though some clothing and small articles were taken.

Charles E. Burke and wife of Fredonia, Kansas, arrived yesterday to spend two months or more in Glendale, visiting Mr. Burke's brother, J. J., of 1242 South Maryland avenue, and seeing the sights of southern California. Mr. Burke is a job printer in Fredonia, doing bank work exclusively. He and his wife were astonished beyond measure when they saw Glendale's beautiful streets and buildings, great mercantile establishments and general civilized appearance, as they had imagined it to be a small village. They are located in Apartment 9 of the Rudy block.

CONSTRUCTION IN PANAMA
American contractors have an opportunity to bid for the building of roads in Panama. Specifications may be obtained from the consul-general of Panama.

SHORTAGE OF MEDICINES
A representative of the Spanish-American news service in a report states that in the northern part of Colombia there exists a great shortage of drugs and patent medicines. Imported patent medicines are required to bear labels written in Spanish.

---SUPPOSE---

you should go to a bank and propose that if they will place \$5,000 or \$10,000 to your credit, as a loan, you will pay them 5 per cent interest with the understanding that if you should die at any time, the full amount will go to your estate, paid for? What would they do? They would probably think you had just escaped from Patton. They would say, "If you will put up 100 per cent collateral and pay us 8 per cent interest, quarterly, we will loan you this amount, MAYBE."

Yet by using your physical condition and moral character as collateral we will place this amount to your credit AT 3 OR 4 PER CENT INTEREST. Fully paid at death? Absolutely, and given to you, yourself, in cash should you live for 30 years! Talk to me about it.

W. B. KIRK

Life Insurance Advisor

Mushroom Sandwiches

3-4 tablespoon butter, 1-4 cup thin cream, 1 tablespoon flour, 2 cups chopped mushrooms, salt, pepper, and paprika to taste. Melt the butter in SKILLET. Add flour, cream and blend well. Let the sauce boil up, season, add the chopped mushrooms and cook a few minutes longer. Cut day old bread in thin slices, removing all crust, brush with melted butter and spread with the mushroom mixture. Put slices together, cut in narrow strips and saute each small sandwich until nicely browned on both sides—serve at luncheon or afternoon tea.

Mme. Rambeau's Skillet

An almost indispensable article in your cooking equipment. The best of aluminum, steel or iron skillets are to be found in our cooking utensil department, most wanted sizes and very reasonably priced. Prices range from 20c to \$5.00.

LECTURE ON AUTO

PACKER & WHITE TO GIVE
DEMONSTRATION; EXPERT
WILL MAKE TALK

The Packer & White Auto company is providing a treat for auto owners in the shape of a lecture on carburetion which will be given in their showrooms, Brand and Colorado, next Tuesday night, February 2, by Thomas O. Duggan, traveling engineer for the Stromberg Motor Devices company, who is an expert along this line. His lecture will not only be of great interest, but of decided value to every motor car owner.

No matter what make of car you drive, information regarding carburetion cannot fail to be profitable, it is announced. A cordial invitation is extended to every owner or driver of a car to attend this lecture.

COLLEGE GIRLS GROW TALLER
Statistics of women's colleges for a period covering sixty years show that the average college girl of today is an inch taller than the college girl of 1860. Statistics also prove the modern girl is about seven pounds heavier.

USELESS FOR MINE RESCUES
The gas masks used in the United States army are useless for mine rescue work and despite the warnings issued from Washington to this effect, miners and persons engaged in mine rescue work persist in using them, in many cases with disastrous results.

GOVERNMENT SURVEY ENDED
The government has completed the field work on a survey of the effect of farm tenancy on the social life of rural communities. Twenty-five hundred farms and families, located in twenty communities, were studied. The findings are not ready for publication.

ALASKAN MINERAL PRODUCTION
Alaska produced minerals to the value of \$22,070,000 in 1920. These figures bring the grand total of the country's mineral output up to \$460,000,000. The United States paid Russia \$7,200,000 for Alaska.

China will send representatives of her silk industry to the International Silk Exposition to be held in New York in February.

CONTRACT TERMS

DETAILS OF AGREEMENT ON
WHICH C. OF C. MEMBER
DRIVE IS STARTED

In view of the fact that the Glendale Chamber of Commerce is now in the process of re-organization under the general direction of James O. Stevenson and in view of the further fact that a number of people are asking as to the terms of the contract under which Mr. Stevenson is working, The Evening News publishes the agreement in full, as follows:

THIS AGREEMENT, made this 7th day of January, 1921, by The Glendale Chamber of Commerce, Inc. of Glendale, Calif., party of the first part, with James O. Stevenson, agent of the AMERICAN SOCIAL RESERVE, of San Francisco, California, party of the second part;

WITNESSETH:

1. The party of the first part hereby retains the party of the second part in a professional capacity to perform the following services, to-wit:

- (a) To organize and direct a campaign for the purpose of creating a fund of \$25,000.00 a year, more or less, for a period of three years, to be used by the party of the first part, and allied organizations, in defraying expenses incidental to their work in behalf of their members and the community of Glendale;

- (b) During and after the financial campaign, to ascertain the wishes of the members of the participating organizations with respect to a Program and Work; to outline a system of committee organization and organization management; and to suggest such revision or changes of the general plan, by-laws, office system, etc., of the participating organizations as may be deemed advisable to gain the best results from the expansion incidental to the campaign;

- (c) To aid the party of the first part in finding a competent organization secretary or manager, and to co-operate with manager and other officers of the first party for one year in conducting the work initiated in or growing out of the campaign.

2. The party of the first part agrees to pay to the party of the second part for the above services as follows:

- (a) A commission of 20 per cent, inclusive of all campaign expenses not otherwise specified herein, of the collected income of the party of the first part for membership dues payable the first year; said commission to apply on all subscriptions or applications made within thirty days of the close of the campaign;

- (b) A commission of twelve per cent inclusive of all campaign expenses, of all other collected pledges made in the campaign; said commission to apply on all subscriptions made within thirty days of the close of the campaign. It is understood that insofar as seems practical to the first party pledges shall be solicited for a three year period, but that no commissions shall be paid to second party on any pledges payable after the first year.

3. The commission specified above shall be paid monthly to the second party on all collections of deferred pledges and membership dues.

4. First party shall pay campaign expenses not to exceed three hundred (\$300.00) dollars. First party shall not be responsible for any other expenses of second party or his agents than specified herein.

5. First party shall receive all funds paid by members or subscribers during and subsequent to the membership and financial campaign; but agrees that second party may examine its books of account during any business day until a final settlement under the terms of this contract shall have been made.

6. Formal authorities for the execution of this contract by the officers or agents of both parties, it is hereby acknowledged and assured; and until all obligations herein contemplated are discharged this contract shall be binding on both parties, their successors or assigns.

IN WITNESS WHEREOF the party of the first part has signed and sealed this instrument the day and year first above written.

GLENDALE CHAMBER OF COMMERCE.

JOHN W. USILTON,
President.

Attest: J. R. WALLACE.

Accepted and terms and conditions hereof are hereby acknowledged.

JAMES O. STEVENSON.

GUN TO GUARD LIQUOR

To guard liquor valued at \$2,000,000, the authorities of San Francisco are making requisition on Washington for a machine gun. Fear that the eastern crime wave may spread to the coast is the principal reason for the recommendation for a machine gun.

VILLA MAKES THEM WORK
Villa has gathered about him all the old-time bandit and revolutionary elements which were identified with his campaigns. They are all welcomed but he does not tolerate idleness and every man is put to some kind of useful labor upon the hacienda.

SHOW INTEREST IN TRACTOR
Cuban farmers, long accustomed to the ox as their chief draft animal, have shown a remarkable interest in the American tractor. With a team of oxen one man can plow about half an acre daily. With a serviceable two-gang tractor, the same man can plow five acres.

DINNER PLANNED

CHAMBER OF COMMERCE TO
HOLD BANQUET ON MONDAY
AT METHODIST CHURCH

The Citizens' Executive committee of the Glendale Chamber of Commerce is completing plans for the first annual dinner to be held by the organization as part of the membership drive, which is being conducted under the direction of James O. Stevenson.

The dinner will be held in the First Methodist church next Monday night at 6:30 o'clock. Jesse E. Smith is chairman of the committee and W. E. Evans will act as toastmaster.

The speakers will be John Frederick, first vice-president of the Los Angeles Chamber of Commerce; George P. Taubman, pastor of the First Christian church of Long Beach and leader of the largest Bible class in the world; also a number of local speakers. J. W. Foley, poet, philosopher and humorist, of Pasadena, will be a guest of honor and take part in the program.

Members of Committee

The Citizens' Campaign Executive committee is composed of the following:

Jesse E. Smith, chairman; George H. Bentley, C. C. Cooper, A. R. Eastman, E. P. Hayward, V. M. Hollister, Roy L. Kent, C. E. Neale, J. A. Newton, L. G. Seavern.

W. E. Anderson, Mrs. Emma V. Bacon, Mrs. H. E. Bartlett, O. H. Belev, J. M. Blankenship, E. A. Bode, Claude Caswell, J. F. Chandler, H. D. Charlton, H. P. Coker, Miss Eva Daniels, E. U. Emery, Rev. W. E. Edmunds, Max Green, Charles Guthrie, Dr. H. R. Harrower, Mrs. E. W. Hayward, Mrs. C. E. Hutchinson, F. M. Kelley, R. F. Kitterman, R. F. Kulp, C. R. Lund, H. G. MacBain, L. T. Rowley, Dr. Jessie Russell, Mrs. Jack Thomas, Mrs. M. L. Tight, C. J. Tuttle.

OFFICIAL PROTEST OVER PLAN

SACRAMENTO—The first official protest against Governor Stephens' plan for departmental reorganization in the interests of efficiency and economy comes from the state department of weights and measures. Superintendent Charles G. Johnson issued a statement declaring that the merging of his department with the department of agriculture "would impair and restrain its practical operation."

Superintendent Johnson also asserted that "the submerging of this service with another state agency, or its illogical amalgamation with another state department, would not effect any economy and would not increase or subsidize its efficiency."

In his statement, which will be published in pamphlet form and distributed among all chambers of commerce in the state, and other civic bodies, Johnson states that creation of his department was sanctioned by direct vote of the people after a fight of more than sixty years to secure accurate standards of weight and measure. The efforts of the people to secure protection through a department of weights and measures will be defeated if the consolidation plan of the governor is put into effect, it is charged.

In South Wales the number of persons employed underground in the coal mines increased during 1919 from about 120,000 to 215,000.

Business Efficiency in Home Management

In the business world the executive—the man who thinks, plans and executes—succeeds because he delegates the detail and drudgery to his assistants. And the woman will succeed who, in the home, does likewise.

In this our family laundry service can assist. It gives you additional time to think and plan and do the more important things. And it is such an economical service and your work is called for and returned so promptly that once you have tried it you will never return to the old, wearisome way of home washing.

Telephone and our driver will call and in just a little while your washing will be back beautifully clean and ready to be packed away.

Glendale Laundry

OIL FROM PINE NEEDLES

COLFAX, Cal., Jan. 29—A plant for the extraction of oil from pine needles is to be located soon in this district according to reports here. Materials for the oil are found in great abundance near Forest Hill, and it is planned to transport them to this city by auto truck, according to J. A. Egenhoff, president, and C. B. Johnson, sales manager of the newly projected company. The plant will distill a medicinal oil and prepare the residue for upholstering purposes.

The California Citrus league seeks an increase of three-quarters of a cent a pound on lemons.

LOGGING CAMPS TO RESUME

VANCOUVER, B. C., Jan. 29—Resumption of logging activities in the big camps in British Columbia, was forecast at a meeting here this week of the British Columbia Loggers' association. It is believed the camps will resume full operation April 1. The renewal of activities is declared by the association to be necessary to supply the expected demand for building material which indications show will begin with opening of spring.

A bill has been introduced in the senate to prohibit smoking in all government buildings in Washington.

BUILDING SURVEY

CITY OF GLENDALE PROVES RIGHT TO BE IN CLASS OF LARGER CITIES

A recent survey of building activities of 1920 by a leading trade journal showed that thirty-three cities in the United States claimed \$10,000,000 or more in building. Of these New York City, of course, led with \$271,463,976, as compared with \$244,463,976 in 1919. Chicago was next, then Detroit and Cleveland. Los Angeles was fifth with \$60,623,600, as compared with \$28,253,619 in 1919. San Francisco was ninth and Long Beach thirtieth with \$10,991,662.

Among California cities Glendale was tenth with \$3,126,664, as compared with \$587,015 in 1919. In two months of the year, August and September, this city was fifth in the state in building, permits totalling more than half a million dollars each month.

Among coast cities many times larger than Glendale that it greatly exceeded in value of 1920 building were Berkeley, Stockton, San Jose, and Spokane, Wash.

work, John Wardell, Marcella Webb, Frances Lucille West, Miriam Peckham Whitten, Florence Eva Wycoff.

Cerritos Avenue Graduates
Here are the names of those who graduated from the Cerritos avenue school:

Charles Rea Adams, Inez Lyman Adams, Charles Miller Badour, Carl William Denney, Joseph Eyrard, Peter Feary, Curtis E. Hayward, and F. Hodder, Jessie Mabel Hunt, Ida Louise Olmstead, Mae Sullivan.

Sunday Services at the Churches

CENTRAL CHRISTIAN
Corner Louise and Colorado streets. Clifford A. Cole, minister. Morning worship and communion at 10:30 a. m., preceded by the Bible school, all forming a continuous service of worship, teaching and inspiration. The choir will furnish special music. At night, following the young people's meeting at 6:30, the minister will deliver the fifth of the special series of historical doctrinal sermons. The topic for tomorrow night will be, "The Conquest of the Balkan Peninsula." Strangers will be welcome. This is known as "The Homelike Church."

FIRST BAPTIST
Ernest E. Ford, pastor. Roy L. Kent, superintendent of Sunday school. Public worship at 11. Sermon theme, "How to Enter the Kingdom of God." This is the second in the series on the "Kingdom of God." Young people's meeting at 7:30. Program: Debate, "Resolved, That the Stewardship and Tithing is the Duty of Every Christian." Three of the members of the society will speak on the affirmative and three on the negative. Praise and preaching service at 7:30. Sermon theme, "The Keystone of the Arch." Mr. E. C. Boynton has been employed to have charge of the choir. Mr. Boynton is a man of long experience in choir work.

CHRISTIAN AND MISSIONARY ALLIANCE
Meetings every Tuesday and Thursday, 7:30 p. m. Gospel Tabernacle, 310 E. Chestnut Street, corner of Louise. Full Gospel—Jesus Christ—Saviour, Sanctifier, Healer and Coming King.

FIRST METHODIST
Corner Wilson and Kenwood. Rev. Clyde Monroe Crist, D. D., pastor. Sunday school (graded) 9:30. Prof. W. V. Tower, superintendent. The Intermediates meet in separate assembly. Preaching at 11:00 a. m. and 7:30 p. m. by the pastor. Morning service, "God's Man." Class meeting at 12:15. Junior League 3:00. Intermediate League 6:30. Epworth League 6:15. Mr. Melrose, leader. Signor Salvatore De Nufrio, with his golden harp, will assist in the evening service. Mr. De Nufrio has performed on his \$2000 harp at all of the world expositions in America. Pastor's theme, "Yesterday, Today and Tomorrow." The large vested choir under the direction of Miss Isabelle Isgrig will present excellent programs. Mrs. H. W. Randall, organist. The acousticon is installed. This is a friendly church and "seems like home."

CHRISTIAN SCIENCE
First Church of Christ, Scientist, corner Maryland and California avenues. Service Sunday at 11 a. m. The lesson sermon is from the Christian Science Quarterly Bible Lessons. Subject, Sunday, January 16, "Love." Sunday school at 9:30 a. m. Wednesday evening testimony meeting at 8. Reading room, 135 South Brand boulevard, open daily except Sunday and holidays from 12 to 5 p. m. Also every Tuesday, Thursday and Saturday evening from 7 until 9.

CATHOLIC
East Elk, near Adams street. Mass at 8 o'clock. Sunday school at 9. Mass at 10:30. Sermon in English. Everybody welcome. James Stephen O'Neill, pastor.

ST. MARK'S EPISCOPAL
Corner of Louise and Harvard streets. 9:45 a. m., Sunday school. 11 a. m., sermon by Rev. Dr. Cornell. Holy Communion on first Sundays.

LUTHERAN
Business men of Glendale are especially invited to attend services at the First Lutheran church Sunday morning at 11 o'clock. Dr. Funk will speak on "Christ and the Common People." Special music. The Bible school begins at 10 a. m. Mr. O. J. Sherrick, superintendent; Miss Helen Esterly, chorister. Evening service, 7:30 p. m. Luther League half-hour devotion. Address by the pastor; subject, "Confirmation, or the Better Way."

PRESBYTERIAN
"Church of the Lighted Cross." Corner Broadway and Cedar. Rev. W. E. Edmonds, pastor. Rev. Louis Tinning, assistant pastor. Sabbath services as usual. Morning worship 11 o'clock. Sermon topic, "Kingship, or the Mind of Christ." Evening service 7:30. (Organ recital at 7:15). Sermon topic, "Scarlet and Purple." No. 2. "The Passion Play." Last words of the Atoning Christ, "It Is Finished." Sabbath school 9:30. H. L. Finlay, superintendent. C. E. meetings at the usual hours. New members are received at the close of any morning or evening service. Musical program: Morning—Prelude, "Elevation in E Major" (Saint Saens); quartet, "Praise the Lord" (Adams); offertory, "Andante" (Cours); contralto solo, "The Voice of Jesus" (Sutcliffe); Mrs. Fannie Marple Retts; postlude, "Victory March" (Flagler). Evening—Organ recital, 7:15; "Litany" (Schubert); "March Pontificale" (Tombelle); "To a Wild Rose" (McDowell); quartet, "From Every Stormy Wind that Blows" (Hine); tenor and bass duet, "My Task" (Ashford); Orrin L. Padel and Alfred Dahlquist; offertory, "Evening Prayer" (Groven); quartet, "Abide With Me" (Wilson); gospel solo, (selected), Mrs. Fannie Marple Retts; postlude, "March in B Flat" (Silas).

CASA VERDUGO M. E.
Rev. Edward O. Thayer, D. D., pastor. Sunday school 9:45 a. m. 11 a. m. sermon, "Who, Today, Is On the Lord's Side?" Epworth League 6:45 p. m. 7:30 p. m. sermon, "Riches of Grace." Special music by the choir. All cordially invited.

NEW THOUGHT CENTER
at Masonic Temple, Sunday, Jan. 23, 1921. Lecture by Dr. Frank Riley at 11 a. m. Sunday school 9:45. All welcome.

Advertisement

TOURISTS BARRED

RUSSIA IS ONE COUNTRY IN WHICH CONDITIONS PROVE BAD FOR TRAVELING

LONDON—Russia remains the one country sealed to the post-war tourist. Until a press correspondent and another American recently made the 5000-mile journey from Vladivostok, Siberia, into Russia proper through Moscow and Petrograd and out across the Finnish frontier no Americans had crossed Russia for more than two years.

After Admiral Kolchak's defeat last year Russia and part of Siberia again were united but the Red forces did not follow up the successes beyond Irkutsk. Scattered remnants of Kolchak's forces retreated on foot to Chita, where they joined with the Cossacks and legionaries under Ataman Semenov and there again established an anti-Bolshevik barrier.

Then Vladivostok, the Siberian port, fell to local revolutionists who expressed their sympathy for the soviet regime but it was understood in Vladivostok the attempt to establish a soviet regime in far eastern Siberia was to be postponed until after the departure of foreign troops.

Thousands of Refugees
Thus Siberia remained divided, the Bolshevik flag flying over the Lake Balkal and Martin provinces, while between these districts Semenov and his Cossacks continued to hold the "black spot" of Siberia, as the Bolsheviks call it.

Thousands of refugees from Bolshevism are gathered in Irkutsk. Their one desire is to get out of Bolshevik territory but the Cossacks will not allow them to pass along the railway zone, fearing Bolshevik agents in their numbers.

On the other side of the Cossack barrier, refugees who have gathered at Vladivostok and Harbin during the last three years try in vain to cross the Cossack belt into soviet Siberia. Difficult living conditions in Vladivostok have made them ready listeners to the stories of Bolshevik agents about ideal life under the soviet regime. Each group of refugees wishes to be in the other's shoes.

Chinese Return Home
One way is open into Siberia. A detour of 2000 miles, through northern China and Mongolia, across the Gobi desert brings the traveler into Siberia across the northern Mongolian frontier.

Over this route thousands of Chinese laborers and small shopkeepers have returned to China since the establishment of the Bolshevik regime in Siberia.

Those few refugees who escape through the Bolshevik cordon, travel across Mongolia into China and Bolshevik agents cross the 700-mile Gobi desert in their trips to and from the Vladivostok district.

TEACH PARROTS TO TALK

A new use for the phonograph is the teaching of parrots to talk. The machine is "charged" with the desired sentence, placed near the bird's cage, and set working.

MAY BE SOURCE OF WOOL

Canada is discussing the possibilities of the musk ox as a source of wool. In the Arctic region, east of the Mackenzie river, millions of these animals are to be found foraging and thriving on a pasturage which no other animal but the reindeer could live on.

CALL CONFERENCE

CITY TRUSTEES AND ZONING COMMITTEE WILL MEET ON THURSDAY NIGHT

Members of the board of city trustees and the zoning committee will hold a public conference at the city hall next Thursday night, the time set being between 8 and 9 o'clock, for the purpose of discussing the proposed zoning ordinance.

The zoning committee has completed its work and has made its recommendations to the trustees, as already told in The Evening News. The conference next Thursday night, called at the suggestion of Trustee Bartlett, is expected to be an important one because of the variety of the provisions in the suggested ordinance.

In submitting the suggestions of the zoning committee to the board of trustees, City Manager T. W. Watson stated:

"Pursuant to action of zoning committee, I present herewith their report and recommendations in the form of a suggested ordinance. This ordinance provides for eight classifications of uses that property may be put to within the city of Glendale. Specific districts are recommended by the committee for classes 2, 3, 4, 7 and 8. The boundaries of these are set forth on map prepared by city engineer.

Set Forth in Colors

"Class 2, apartment house district, is set forth on map in light green.

"Class 3, retail business district, is set forth in dark green enclosed in heavy red lines.

"Class 4, general business district, is set forth in dark green exclusive of Class 3 just mentioned.

"Class 7, motion picture district, is set forth in red.

"Class 8, industrial districts, is set forth in brown.

"No districts have been recommended for Class 5. It was thought best, however, to include this classification which is for churches, schools, public buildings, etc., in that it might be advisable to establish such districts in the future. No general district is recommended for Class 6 which is for hospitals, sanitariums, etc. Two small districts have been recommended, however.

These are set forth in lavender and include the Thornycroft Sanitarium and the Glendale Research hospital. "Class 1 which includes only single family dwellings covers the entire city and that portion of the city not specifically included in any other classification is reserved exclusively for single family dwellings.

No Recommendations Made

"The committee discussed somewhat the advisability of limiting the height of buildings and also the area that might be occupied on a given lot by the buildings thereon. It was decided, however, to make no recommendations at this time in regard to these matters.

"The advisability of establishing set-back lines was also discussed and upon investigation it was found that the city planning commission of Los Angeles is recommending legislation along that line which will probably be enacted before long by the Los Angeles City council. This will no doubt be taken into the courts and the validity thereof determined. It was therefore thought best to delay action along this line until the results of this proposed legislation are at hand.

"The committee desires to hereby express appreciation for the assistance rendered by G. Gordon Whittall, secretary-consultant of the Los Angeles City Planning commission, who upon our invitation attended two of the committee's sessions and greatly assisted the committee in its deliberations."

Concrete roads cost from \$50,000 to \$70,000 a mile to build.

Every Tire Is Signed

Two men sign every Miller Tire—the maker and the inspector. Both are penalized if a tire comes back.

Under this method, defects have become extremely rare. Not a tire came back for adjustment to many Miller dealers last year.

Over 1,000 tires yearly are worn out in Miller factory tests.

All the best rival tires are constantly compared with the Miller, with these results:

- Millers now excel all rivals, both in average and in uniform mileage.
- Miller treads outwear rival treads by 25 per cent on the average.
- Miller Cords average 15,000 miles—Miller Fabrics from 8,000 to 9,000 miles—in rear-wheel tests under extreme conditions.
- You will gain a new idea of modern tires when you test a new-type Miller. Get one now and watch it. The super-service of the Miller Tire is now everywhere discussed.

IMPORTANT RULING

DECISION IS OF INTEREST TO AUTOMOBILE OWNERS IN DAMAGE CASES

Superior Judge Swing at Imperial has just handed down a decision of great importance to automobile owners. In substance, the ruling of Judge Swing is that before the owner of an automobile can be held for damages resulting from an accident in which his car figures, but which is being driven by another person at the time, it must be shown that the driver is carrying on the business of the owner as his agent. The decision is declared to be in line with another reported in a Riverside case.

The Imperial Valley case was unusual in that the Rev. Gregory Ashe, pastor of St. Mary's Catholic church at El Centro, was the defendant. A jury returned a verdict against him and in favor of L. A. Jackson for \$4000 damages as a result of an accident on the state highway in Imperial county in which Jackson was seriously injured.

What Evidence Showed

The evidence revealed that F. J. Dolan, a friend of Father Ashe, was driving the latter's car when the accident occurred and that the pastor was not even a passenger in the automobile.

Judge Thomas P. White, represented Father Ashe and successfully contended that before his client could be held responsible for Jackson's injuries it must be shown that Dolan was acting as Father Ashe's agent in driving the car and was on business for Father Ashe at the time the accident occurred. Judge Swing heard the view and set the verdict aside.

GASOLINE EXPORTS

SUBSTANTIAL INCREASE SHOWN FOR PAST NINE YEARS IS REPORT, EXCEPTING 1919

Gasoline exports from the United States in the first ten months of 1920 were at the rate of 642,000,000 gallons for the year, a high record, 82,630,000 gallons in excess of the previous record of 559,370,000 gallons in 1918, which was a war year. The 1920 exports were more than 224,000,000 gallons in excess of the first ten months of 1919.

In the nine years in which gasoline exports have been reported, more than 3,100,000,000 gallons have been shipped. They have shown a substantial increase each year, with the exception of 1919. The record 1920 exports indicate that automobiles are in much greater use in foreign countries. France and Belgium have taken large quantities in recent months.

South American countries and Canada have bought heavily since the war.

RULES IN JAPAN

STRANGE REGULATIONS MADE FOR GUIDANCE OF AUTO TRAFFIC IN ORIENT

Here are the latest "rules of the road" in Japan, said to have been issued by the Japanese for the guidance of English-speaking motorists:

"At the rise of the hand of honorable policeman, stop with rapidness greatly. Do not pass him by or otherwise disrespect him."

"When a passenger of the foot hove in sight, tattle the horn trumpet to him melodiously at first. If he still obstacles your passage, tattle him with large vigor and express your word of the mouth a warning, 'Hi! Hi!'"

"Beware of the wandering cow that he shall not take fright as you pass him. Do not explode the exhaust noise box at him. Go smoothly by."

"Give space to the festive dog that makes play-sport in the roadway. Avoid entanglement of dog with your wheel spokes."

"Go smoothly on the grease mud, as there lurks the skiddy demon. Press the brake of the foot smoothly as you roll around the corners and save collapse and tip-up."

"Thank you honorably!"

Awaits Warmer Weather

William A. Tanner of Tanner & Hall, Buick agents, is still confined to his home by throat trouble. He will probably get out as soon as the weather turns warmer.

Chevrolet Is Purchased

Fish & Tarr sold a latest model Chevrolet this week to Mrs. D. B. Pingree of 1425 North Pacific avenue. They have also disposed of five used cars in the last ten days.

RANGE OF TRAVEL INCREASES

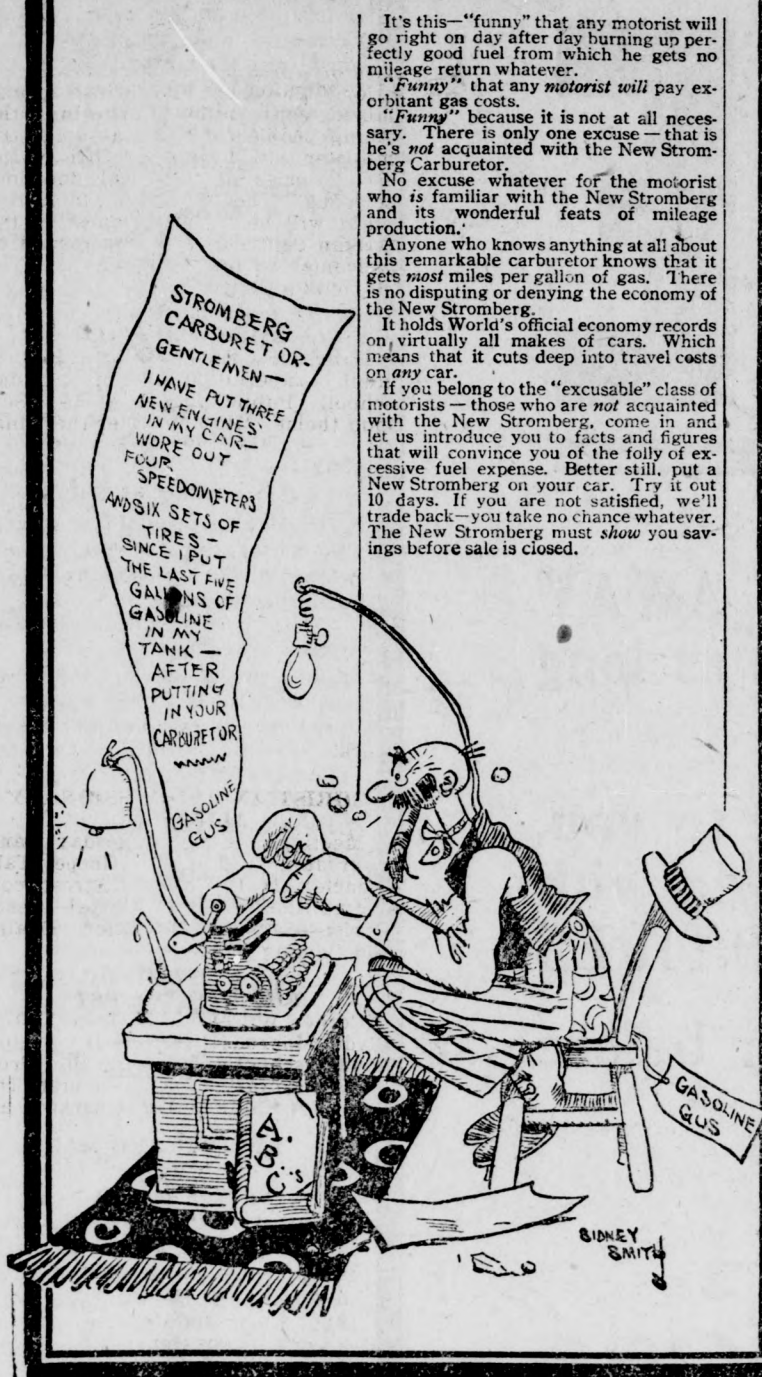

With the passing of the horse-drawn vehicles and mud roads and the growing popularity of the automobile and the modern highway, the range of travel has increased from 10 to 150 miles per day.

THIS TRACTOR ERECTS POLES

For the use of electric companies a tractor has been designed that quickly drills holes in any kind of ground and then hoists and sets poles in them.

New Jersey has approximately 15,000 women automobile drivers. This number is 5 per cent of the total of motorists in that state.

There is a "Funny" Side to Fuel Costs

It's this—"funny" that any motorist will go right on day after day burning up perfectly good fuel from which he gets no mileage return whatever.

"Funny" that any motorist will pay exorbitant gas costs.

"Funny" because it is not at all necessary. There is only one excuse—that is he's not acquainted with the New Stromberg Carburetor.

No excuse whatever for the motorist who is familiar with the New Stromberg and its wonderful feats of mileage production.

Anyone who knows anything at all about this remarkable carburetor knows that it gets most miles per gallon of gas. There is no disputing or denying the economy of the New Stromberg.

It holds World's official economy records on virtually all makes of cars. Which means that it cuts deep into travel costs on any car.

If you belong to the "excusable" class of motorists—those who are not acquainted with the New Stromberg, come in and let us introduce you to facts and figures that will convince you of the folly of excessive fuel expense. Better still, put a New Stromberg on your car. Try it out 10 days. If you are not satisfied, we'll trade back—you take no chance whatever. The New Stromberg must show you savings before sale is closed.

HITS HIGH GRADE

OLDSMOBILE CAR, LOADED TO THREE-QUARTERS OF TON, MAKES GOOD RECORD

Climbing Cahuenga pass in high gear with a load of ten husky passengers overflowing the seats and draped over the running boards was the sensational performance staged recently by one of the new little Oldsmobile four cylinder cars. With only a thirty-mile speed at the foot of the hill, the sturdy little car lugged its ten passengers over the summit at a twenty-two-mile an hour gait.

Heavy Load Is Carried

With a normal load the Oldsmobile four galloped over the grade in such effortless fashion that it might as well have not existed. Traffic was too heavy to permit of a speed test with safety, so the driver conceived the idea of seeing what sort of a load it would take to make the car hesitate in a high gear test over the hill. He accordingly rounded up nine friends and their total weight was 1612 pounds, or considerably better than three-quarters of a ton. Starting at the car tracks, the little car gathered speed quickly even with its tremendous overload, and hit the bottom of the grade at an even thirty miles an hour. In amazing fashion the motor lugged up the grade, the car speed never falling below twenty miles an hour on any portion of the hill. Toward the summit it picked up speed a trifle, crossing the tip at even twenty-two.

PRICE REDUCTION

FORD MOTOR COMPANY TELLS OF LOWER PRICE; WARNS ABOUT INCREASE

The price of the Fordson tractor has been reduced from \$790 to \$625, effective immediately. Edsel Ford, president of the Ford Motor company announced at Detroit.

Reduction in price of materials and operation of the plants at maximum production made the reduction possible, the statement said.

Prices of Ford cars will be restored to the high level reached during the war unless there is an increased demand for automobiles which would enable the Ford plants to operate at maximum production and at minimum cost, the statement declared.

PRINCE OF WALES AUTO FAN

The Prince of Wales is rated as the most popular man in England, and because of the fact that he is marvelously quick at operating his automobile, he is able to fill the numerous engagements of the day.

AUTOMOBILE SALES

NUMBER OF CARS SOLD IN SOUTHERN CALIFORNIA IS REPORTED UPON

The official compilation of the number of cars sold in southern California during 1920 gives the following figures as far as some of the cars which are represented by Glendale agencies are concerned:

Ford	16,946
Chevrolet	4,640
Buick	3,196
Dodge	2,922
Overland	2,257
Studebaker	2,165
Nash	1,272

A grand total of 47,232 automobiles were sold in southern California last year.

After having driven automobiles all over the world, covering a distance of 70,000 miles, Harrison K. Craner of Philadelphia was recently arrested for the first time in an attempt to pass a traffic stop signal.

In Australia motorcycles are altered for the use of badly incapacitated veterans of the war. The maimed soldiers travel in the business sections of the city of Melbourne with perfect ease.

CONSERVATION

SAVING OF GASOLINE GREAT
NEED OF AUTO ENGINES
DECLARES BANKER

If the motor industry is to continue as prosperous in the future as it has been in the past, automotive engineers and automobile plants must turn their attention not to the production of high-powered engines that consume large amounts of gasoline, but rather to engines that will conserve gasoline in every possible way, according to a statement made by W. W. Woods, Los Angeles banker, before the Los Angeles Automobile Trade association.

"The future of the automobile industry must inevitably turn to the conservation of fuel, the production of more mileage per gallon, or else, due to the cost of operation, there will come a falling off in the number of cars upon our roads," Woods declared.

Conservation of Gasoline

It was also pointed out that upon the conservation of petroleum the industrial and economic future of California depends.

"If we destroy our forests we can replant them, but once we have drained our oil fields of their wealth, that wealth is gone forever, and, therefore, on our use or misuse of this vanishing asset depends our custodianship of the future," Mr. Woods declared.

He stated that many automobile companies are beginning to understand the situation and already steps have been taken to place on the market cars with a low gas consumption.

AMAZING TOTAL

TWO BILLION MARK IS PASSED
IN VALUE OF CARS AND
2,230,000 ARE MADE

For the first time in its spectacular history, the automobile industry passed the \$2,000,000,000 mark in value of cars and trucks manufactured within the period of a year, in 1920, when the amazing total of 2,230,000 motor vehicles was made.

Shattering records during a year, the last three months of which were considerably disturbed by readjustment progress, bespeaks the vital essentiality of the automobile industry and of the powerful forces that have sent it skyrocketing to new marks every twelvemonth since it first became recognized as a business, in the not far distant 1899.

There are now more than 8,000,000 motor vehicles in operation in the United States, which virtually amounts to 80 per cent of all the automobiles and trucks in the entire world. The cars are wearing out at the rate of from 1,100,000 to 1,500,000 a year, which with the normal first-time purchases will keep the production average close to the 2,000,000 mark even under adverse conditions.

THEFTS DECREASE

TOTAL OF 1635 CARS STOLEN
IN 1920, IS REPORT BY
AUTO CLUB OF SOUTH

According to a report issued by the Automobile Club of Southern California, there has been a decrease in auto thefts during 1920, as compared to other years.

While there were 1631 cars stolen last year, there were 1662 stolen the year before. Although many more cars were owned in southern California last year than in 1919, there were fewer stolen.

But the thieves did better jobs with those they did steal during 1920. This indicates, say auto club detectives, that only the most expert thieves are left, other more amateurish ones having been caught.

On January 1 there were 493 automobiles which had been completely lost through theft. Despite the efforts of the club's theft bureau and the police and the sheriff's office,

Confined by Illness

Oma Fish, of Fish & Tarr, Chevrolet representatives, is not yet able to be at his place of business, being confined to his home by illness.

Hustling for Business

B. G. Sutherland, the Liberty and Gardner dealer, has mastered the boil which pre-empted a location on his neck, and is hustling again as hard as ever.

NO BACK IN THESE GOWNS

PARIS—Strange décolleté designs are being employed in the latest Paris dresses, which are extremely low-cut behind.

In one the only clothing above the waist at the back is an enormous bow fixed in the hollow of the back, above which the body is entirely undraped.

Yet another original back covering is a filmy close-fitting network of black lace with two panels in it on the shoulder blades, through which openings the white shoulders are revealed.

MISSING GIRL IS LOCATED

NEW YORK—Mr. and Mrs. Benjamin F. Spellman left for Montreal, Canada, to bring back their daughter, Blanche, a Bernard college student, who left home recently without notifying her parents. What threatened to become another Dorothy Arnold mystery was cleared up when her family received a letter telling of her safe arrival and of a letter mailed before leaving, in which she said she had gone away to study art. This letter had been mislaid. The police had instituted a country-wide search for the missing girl.

GOOD BUSINESS

W. J. MANENNY OF DETROIT,
HEAD OF ESSEX COMPANY;
NOW IN SOUTHLAND

Until a better, more convenient means of transportation is invented, the automobile industry is going to be a good business, regardless of temporary setbacks. This is the declaration of W. J. Manenny of Detroit, secretary of the Hudson Motor Car company and president of the Essex Motor Car company. With his wife, Mr. Manenny arrived recently at Pasadena for the season.

"If things are quiet now in automobile manufacturing, that is not because it is the automobile industry, but because things are quiet in all other lines, too," he said.

Zero Hour Has Passed

"We are merely a unit and a very necessary one, in the national business. I believe that the zero hour of the readjustment, as George M. Reynolds of Chicago says, has been passed, and with spring, business will improve in all lines.

"Neither the Hudson nor the Essex companies found it necessary to shut down this winter, as did many other auto factories. This was because we began retrenchment in time instead of keeping going full tilt until it was necessary to come to a dead stop. Our production has been running about one-third that of normal and we are shipping some cars every day."

HOMICIDES LAID TO REACTION

WASHINGTON—"While there is no evidence of a 'crime wave' in South Carolina such as New York is witnessing, yet during the last few months the homicide rate of the state has been almost twice that of last year," said Francis B. Chilton of Charleston. "Indeed, so marked has been the increase in homicides that the state authorities are considering sterner measures to check this useless waste of life.

"Reaction from the war is believed to be the underlying cause. In the first place, the war, which took thousands of lives daily, gradually brought about a light regard for human life. This undoubtedly leads to violence in disputes which formerly would have been settled in less drastic ways."

Medieval Irish troops used the battleaxe as their chief weapon. No records of baptism were kept until the sixteenth century.

The shortage of labor has resulted in an increase of more than 50 per cent of tractors on farms in Pennsylvania, the present number totaling 6823.

Sweden has 8500 automobiles.

RECLAIMING FARMS

BATTLE-WORN GROUNDS ARE
BEING TURNED BACK TO
FOOD PRODUCERS

By R. H. SHEFFIELD

United Press Staff Correspondent
BRUSSELS—Slowly, but surely, the battle-worn farms of Flanders are coming into their own again. Government is offering special favorable terms for the leasing of lands for agricultural purposes, with a view to helping in this branch of national reconstruction. Belgian farmers are all "little" men; there is not a really big allotment in the kingdom. While it is true that there are spots, round about the Yser and elsewhere, that will not be available for cultivation for years, scattered up and down Flanders are numerous farmlets which a couple of years ago were little else than shellplowed wastes and eerie of the carrion crow.

Quietly but effectively, the Belgian smallholder is coming back to his farm; and the department of agriculture is affording as much help as red tape and bureaucracy will admit.

Government Gives Help

There were no leased farms in Belgium before the war. Every small holder owned his land outright. Under the revived system of leasehold farms, the government has instituted special facilities to enable ruined farmers to rent land. These impoverished people could never after their heavy war losses, hope to buy their allotment.

These small agriculturists, who have to work terribly hard to get a living out of the ungrateful soil, usually work a few acres on their own account, or, maybe, they are assisted by members of their family, and perhaps, in the busy season, by one or two, not more, hired hands.

With a determination to develop agriculture, the authorities subsidize a number of practical courses of training in the various branches of farm work. Local agricultural clubs and farmers' societies are chosen for carrying out this task of technical education. Certified teachers in farming are paid for giving public lectures and demonstrations in agriculture and horticulture.

Colleges Well Organized

The government colleges at Gembloux and other places are excellently organized. Apart from this college training, there are also public free lectures, to which even the humblest have easy access, and which are often held on Sunday or other "off" days.

If agriculture has revived with remarkable strides, considering the devastation wrought by the war, it is largely due to the fact that government has recognized that farming is

MANY QUESTIONS

WHAT TO ASK YOURSELF WHEN
MAKING OUT REPORT ON
TAX TO GOVERNMENT

In the making of an income tax return for the year 1920, taxpayers of every class, business and professional man, wage earners, and farmers, should present to themselves for consideration the following questions:

Did you receive any interest on bank deposits?

Have you any property from which you receive rent?

Did you receive any income in the form of dividend or interest from stocks or bonds?

Did you receive any bonuses during the year?

Did you make any profit on the sale of stocks, bonds, etc.?

Did you act as a broker in any transaction from which you received commissions?

Are you interested in any partnership or other firm from which you receive any income?

Have you any income from royalties or patents?

Have you any minor children who are working?

Has Wife Any Income?

Have you control of the earnings of such children? If so, the amount must be included in the return of income.

Has your wife any income from any source whatsoever? If so, it must be included in your return or reported in a separate return of income.

Did you receive any directors' fees or trustees' fees in the course of the year?

Do you hold any office in a benefit society from which you receive income?

Answers to all of these questions are necessary to determine whether a taxpayer has a net income sufficiently large to require that he file a return. If single, or if married and not living with wife, and his income for 1920 was \$1,000 or more, he must make a return regardless of whether his income is nontaxable by reason of his exemptions for dependents, or as the head of a family. If married and living with wife, and his income was less than \$2,000, he need not make a return.

At the time of its birth the giraffe measures six feet from its hoofs to the top of its head.

one of the national mainstays and, as such, must be developed by all available means. A second factor in the revival is the perseverance of the Flemish peasant. He is a success as a small holder, because he is tenacious and is not easily disheartened by climate and soil.

There Is a Difference in the Way the Liberty Six Rides and Drives

Liberty Six Sells Quickly

It's an interesting fact that many Liberty sales are closed in the first fifteen minutes of demonstration.

People are always attracted to the Liberty by the individual beauty of its design; and still further interested by the good things they hear of it from owners.

What they have seen and heard has bred a friendly feeling for the car, which is intensified in that first ride, and grows stronger and deeper with every year's experience.

The Difference in the Riding and Driving Qualities of the Liberty Six

Is not to be wondered at when one learns the steadfast quality of the car, which becomes more and more apparent as the miles roll up. The unusual comfort which the Liberty affords, the reasonableness in the cost of its operation and upkeep, the high order of designing displayed in even the minor details are all features that make the Liberty Six "different."

But—We can show you all these details much more quickly than we can tell you about them through an advertisement. May we have the opportunity.

The Moro mother is never troubled by the fear that her baby coach is out of fashion for she never has one. She throws her children on her shoulder, one on each side, perhaps, and the youngsters cling to her hair.

SALE OF NASH

THOMAS G. WIDMEYRE SELLS
SIXTY-TWO CARS DURING
PAST FISCAL YEAR

Thomas G. Widmeyre, 207 North Brand boulevard, has sold to H. J. Stadler, of the Stadler Grocery company, South Brand, a late model Nash.

For the fiscal year ending September 1, last, Mr. Widmeyre sold sixty-two Nash automobiles—the number that his contract called for. He could have sold several more, but at one time during that period there was a shortage of Nashes and he was unable to make more deliveries.

Mr. Widmeyre's territory covers the whole of the San Fernando valley. He considers he has made an excellent record for one year.

TIRE SATISFIES

C. E. SCHIMMELFENG HAS ONE
ON CAR THAT HAS RUN
OVER 26,000 MILES

C. E. Schimmelfeng, the real estate dealer on North Brand boulevard, has a Miller cord tire on his large Buick which has run over 26,000 miles and is still good for a long distance. He bought the tire in Warren, Penn., used it a good while in that state, where the roads are not equal to those in California, by long odds, drove across to the land of sunshine with it, then made a trip to Oregon and back, and is still using it.

Mr. Schimmelfeng says he has a receipt for the payment of the tire and a record of the speedometer showing the exact miles that the Miller tire has been run.

MEAL FOR MAN WHO STOLE

NEW YORK—A good many people who would otherwise have been pretty scornful toward Col. Edward B. H. Green, son of the late Hetty Green, because he had a Pekinese dog worth \$200 that a thief could steal, will be softened by the fact that, after catching the thief with the dog under his arm, Col. Green bought him a meal.

Traffic on the New York barge canal was 182,590 tons greater in 1920 than in 1919. The actual amount carried last year was \$1,421,434 tons.

The first large shipments of Alberta wheat to leave for Europe by way of the Panama canal were made early in January from Vancouver.

President William McKinley received a delegation of the first Good Roads Congress more than twenty years ago.

aiding MEMBERS

MANAGER HARLOW OF LOCAL
BRANCH OF AUTO CLUB
TELLS OF LICENSES

"The members of the Automobile Club of Southern California are coming in by singles, groups, pairs and bunches into all the club's offices all over southern California to avail themselves of the free service extended in getting their motor licenses for 1921," said Stafford Harlow, manager of the branch of the club in Glendale. "This is as it should be. This is one of the many branches of service which the club gives its membership all through the counties south of the Tehachapi, and that it is thoroughly appreciated by the men and women on the club's roll of members is attested by the increasing attendance every year at all of the various offices.

"Over 17,000 members have already filed their applications at the home office in Los Angeles, and many thousands more have received the aid of the branch office employees in getting their licenses attended to."

Much Time Is Saved

"Approximately 62,500 licenses for members of the Automobile Club of Southern California will be taken out altogether. Members will save themselves a substantial amount of time by applying at their home office for these services, which the club will be very pleased to extend to them.

"The long experience of the club's employees in handling license applications enables them to dispose of many questions which the members may wish to inquire about, and it also makes them competent to put through the matter of obtaining a license in as short a time as is humanly possible."

Branch Manager Harlow of the Automobile club's offices, at the corner of Colorado and Brand boulevard, will be glad to welcome all members of the club, and take charge of the matter of getting their 1921 licenses. This annual service, in addition to the many other services given its membership, is one of the reasons for its present membership of over 51,000 members in southern California which is still climbing toward the record of records," he says.

The National Association of State Railway and Utility Commissions has presented a motion urging the interstate commerce commission to set aside the order approving the consolidation of railway express companies.

Of the eighty-eight types of passenger cars manufactured in the United States not less than fifty have some form of heaters as standard equipment.

The Baltic sea has an average of one shipwreck every day throughout the entire year.

MANY CUSTOMERS

FIGURES ARE GIVEN SHOWING
HOW LARGE NUMBER MIGHT
SECURE AUTOMOBILES

Between 3,000,000 and 4,000,000 people in the United States alone will be able to afford to buy medium-priced automobiles during the selling season which is now just opening, according to a statement by the Liberty Motor Car company of Detroit. This estimate was based upon research of the government income tax statistics and other information.

There are only 159,606 people in America with annual incomes of \$10,000 or more, thus showing the limits for the major part of the market for the high priced cars. This also must be counted as a market for medium priced cars, inasmuch as many very rich people are known to maintain several cars.

Income Tax Returns

For instance, 67 per cent of the present drivers of the Liberty Six, in the New York area, according to a recent analysis, formerly drove cars in a price class no lower than that of a Cadillac, although the Liberty is a medium priced car.

On January 1, 1919, there were 4,425,114 personal income tax returns, in addition to a large number of returns of business concerns which were able to buy passenger cars. With the rapid growth which occurred in the last two years, it is safe to set the present figure at far in excess of 5,000,000 people or concerns able to afford cars. Out of this number, 1,516,938 people for the year 1918 paid an income tax on between \$1000 and \$2000.

Many Customers Seen

The number should be considered somewhat higher for the past year. Figuring that people with incomes between \$1000 and \$2000 a year form the bulk of the market for low-priced cars, and making other due allowances, it is computed that between 3,000,000 and 4,000,000 people or firms are able to buy autos of the medium price class. Also some non-taxpayers will buy cars.

Although many of these people and firms already have automobiles, it is estimated that at least 1,100,000 cars are sure to be junked during the next twelve months, whereas the total number produced this past year has only been somewhere around 2,000,000 cars and many of those were shipped to foreign countries.

REPORT ON ROADS

CALIFORNIA STATE HIGHWAY
COMMISSION SUBMITS ITS
ANNUAL STATEMENT

The report of the California state highway commission to Governor Stephens was before the legislature at Sacramento so that the members may consider it during the recess. The report recites that the commission has adopted certain fundamental features for the road building program which include, first, routing, so far as practicable, over the shortest routes between termini; second, cement concrete as a standard construction base, and, third, the unit plan of construction.

A heavier duty road now being required than was the case when construction started ten years ago, the commission says, it has increased the depth of base from four to five inches of reinforced concrete. A minimum width of twenty-five feet, often discussed, is not held advisable because of the greatly increased cost per mile, and it is held best to continue the fifteen-foot minimum, with widths varying up to twenty feet as traffic conditions seem to require.

Old road betterment, it is stated, is also being given careful consideration and a fair proportion of funds.

More Money Is Needed

More money is needed, the report says, to complete the highway system, reconstruct oiled macadam roads built by counties and taken over by the state, widen and thicken highways as needed, aid construction in financially weak communities and defray cost of increased specifications adopted since the \$40,000,000 bond issue was voted.

A gasoline tax, now under consideration by the legislature, is recommended as a possible source of this revenue, and the commission has also taken the position that a "pay as you go" policy is preferable to additional bond issues at present, if it can be financed.

Convict work is commended; the federal aid is discussed and its importance acknowledged, and other topics covered briefly. The report is free of statistics.

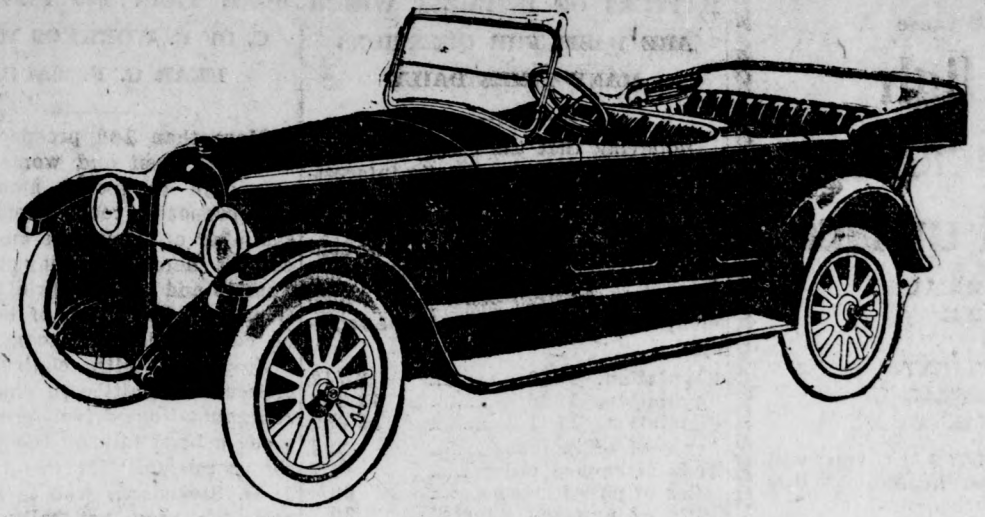

The refuse from the streets of Rome and other Italian cities is sold by auction.

NOTICE THAT COPIES OF PROPOSED CHARTER FOR THE CITY OF GLENDALE MAY BE HAD.

Pursuant to the order of the Board of Trustees of the City of Glendale, public notice is hereby given that copies of the proposed charter for the City of Glendale, prepared by the Board of Freeholders and filed with the City Clerk on the 12th day of January, 1921, have been printed in convenient pamphlet form, and that such copies may be had upon application therefor at the office of the City Clerk in the City Hall of the City of Glendale.

WANT CEDAR CHEST

CONGRESSMEN ARE IN FAVOR
OF RESTORATION COSTLY
BOXES FOR CLOTHES

The cedar chest idea has again struck congress, and many of the 102 new members are demanding that it be restored. It was dispensed with a year ago, when both branches of congress refused to vote an appropriation sufficient to supply the chests. Until then, from time immemorial, each member of the house at each session was supplied with a large cedar chest, an oak chest and one of pine.

New members filed their applications for chests as soon as they had begun to warm their seats. But the war came on, and the supply of cedar was curtailed. The usual appropriation of \$6000 was made to supply the chests for the house side, the senate refusing to countenance the practice, cutting the item for its use to \$790, the appropriations for each branch of the congress being carried under the head "for packing purposes."

Surprised at Prices

As soon as the money was at the disposal of the chief clerk of the house he found to his amazement that any sort of a cedar chest that would be acceptable to a member of the house would cost \$18 to \$20, and that if bought in retail trade they would cost \$35 each.

The lowest bid for furnishing each member the three chests last season was \$19,000. This left nothing for the chief clerk to do but notify the house members that no cedar chests were available, and that only one pine chest would be furnished for packing purposes.

The sergeant at arms of the senate had only ninety-six members to deal with, and he proposed that three pine or redwood chests would be furnished each senator or one cedar chest, several of the latter being on hand from a previous session.

Began Years Ago

Now there is a strong sentiment on both sides of the capitol to restore the custom and to vote an appropriation to meet the demand.

The practice began years ago, when members of congress found they would need chests in which to pack their private papers and books when they went home between sessions. Then cedar chests were proposed, and they are immediately converted into clothes chests as a rule.

Old members have availed themselves of the privilege as well as new ones, and in some offices on the house side as many as four cedar chests can be found piled in the corner of the office.

In Buenos Aires there are nearly 9000 children under sixteen years of age employed at an average wage of 46 cents a day.

DIET IS LIGHT

CORN BREAD, GOAT MILK AND
ONION MAIN FOOD TAKEN
BY BALKAN PEASANTS

BELGRADE, Serbia—To the American visitors, accustomed to the ordinary comforts of life, it is a constant source of wonderment how the peasants and poor of the Balkans are able to exist on the meager food they have. Corn bread of poor quality, supplemented with goat's cheese or ordinary leek or onions, forms the diet of a large part of the village population. This slender regimen produces robust bodies, strong muscles and rosy cheeks. The old adage that bread is the staff of life finds its best proof here.

On the whole, the poor of the Balkan countries have an unusually hard lot in life. Their poverty is practically permanent. Their plight seems to excite little sympathy from those who are well off. There is a calloused indifference to the sufferings of the poor which strikes an American as almost heartless. In few if any of the Balkan states does the government make any provision for the care of the poor. This work in the past has been left largely to foreign relief agencies and private charitable organizations.

Eight Hour Day Unknown

The eight-hour working day so common in the United States is unknown in the rural districts of the Balkans. The peasant works from sunrise until after dark. He is so bent and weather-scarred that he looks twice his age after thirty. In some cases he belongs to nomadic tribes and leads an existence unknown in the country districts of America. At night one often passes whole wagon loads of them on the road going from town to town. Every man is asleep on the top of his load, and is not disturbed by thoughts of burglars or highwaymen.

The peasant removes his hat to everyone better dressed than himself and gets his oxcart off the road for every automobile that passes. He is a simple, honest, homeloving person with much homely virtue. The peasant women have enormous families of children, about half of whom never survive the rigors of child life in the extreme conditions that prevail in the Balkans.

Cottages Crude Structures

The cottages of the peasants are crude structures with thatched roofs and mud walls. But they contrive to adorn them with attractive exteriors and take great pains to produce the utmost decorative effect. This embellishment frequently takes the form of a porch with a wall background bearing a border design whose contrasting colors and composition suggest the patterns used by the Navajoes of the American southwest in their blankets and carpets. But while the exteriors of the

FIGURES ON AUTO INDUSTRY

In reply to statements that the motor industry is approaching the point of "saturation," the Liberty National bank of New York has published a study of the subject which points out that there are but 900,000 trucks and 8,000,000 motor cars in service in this country to supply the needs and wishes of 105,000,000 people.

A Danish physician has discovered a new fluid which removes all pain in wounds. It is a powerful disinfectant.

ATTEND LUNCHEON

MORE THAN 100 PROSPECTIVE
C. OF C. WORKERS MEET TO
HEAR G. F. TAUBMAN

More than 100 prospective workers, both men and women, in the campaign to secure members for the proposed reorganized Glendale Chamber of Commerce met at luncheon at noon yesterday in Masonic Temple and heard a brief address by George P. Taubman, of Long Beach, on co-operation and team work.

Jesse E. Smith, chairman of the citizens' committee in charge of the reorganization drive, presided, and made a brief talk on the purposes of the campaign. He was followed by J. O. Stevenson, who is here to direct the plan generally. Mr. Stevenson introduced Mr. Taubman.

Following Mr. Taubman's talk, pledge cards were signed by a number willing to work in the drive, which begins next week. After the luncheon, a meeting of team captains was held and plans for the campaign were further outlined.

Tells of Long Beach

During his talk, Mr. Taubman stated that the services of Mr. Stevenson had been enlisted nearly two years ago to reorganize the Chamber of Commerce of Long Beach and that the work was successfully done. He said that Long Beach now has a strong, active Chamber of Commerce and that important projects had been carried to a successful conclusion as a result.

Mr. Taubman declared that factional differences in a city should be forgotten and that everyone should unite into an organization capable of doing big things for the community. He asserted Glendale has wonderful possibilities and he urged that the campaign workers carry out the plans outlined for them.

It was at his suggestion that a number of those present signed the pledge cards to work in the drive and these will be assigned duties in the campaign under team captains next week.

Mr. Taubman has a Bible class in Long Beach that is attended by about 1800 persons each Sunday. He will be one of the speakers at the Chamber of Commerce banquet to be held Monday night at the First Methodist church. He is an interesting speaker and has a fund of stories, some of which he told yesterday for the pleasure of the guests.

The luncheon was served under the direction of the women of the Presbyterian church and Chairman Smith said words of praise in behalf of the meal and the service. Piano music was provided during the luncheon.

The representatives of the Presbyterian church assisting were Messdames M. P. Harrison, J. J. Davis, L. R. Sinclair, W. J. Smith, John McCoy, Henry Lawrence, J. B. McClellan and J. A. Newton; Misses Fielding and McCoy.

List of Those Present

The following is a list of those in attendance.
W. G. Haney, J. S. Person, W. H. Armstrong, J. B. Burn, W. D. Clark, E. F. Kulp, Clem Moore, J. G. Huntley, H. M. Butts, W. R. Phelon, J. E. Phillips, J. F. Chandler, R. V. Hogue, M. P. Harrison, J. M. Blankenship, Henry R. Harrower, James Howarth, J. E. Walker, E. W. Kingsley, L. T. Rowley, C. E. Neale, C. C. Cooper, C. Da Lusby, H. S. Webb, A. G. Spohr, W. H. Hooper, Herman Nelson, W. F. Nash, Sr., J. Herbert Smith, James W. Pearson, J. S. Hendrix, J. L. Gelvin, T. L. Totman, H. H. Wiebe, J. N. Stuckey, H. P. Goertz, Lee D. Childers, Geo. P. Taubman, Jesse E. Smith, Alvin E. Sanders, Harry E. Hall, A. L. Baird, Roy L. Kent, A. L. Ferguson, Geo. U. Moyle, Irving H. Oliver, H. C. Ellis, R. M. McGee, C. H. Bott, Herman E. Psenner, Dr. C. Monroe Taylor, Dr. J. E. Eckles, S. C. Packer, V. M. Hollister, David L. Gregg, S. Berman, J. H. Wittmeyer, J. Tipton, J. A. DeMuth, Owen C. Emery, V. Salmacia, Chas. R. Lusby, E. Wolber, Roy D. King, T. W. Watson, W. W. McElroy, H. E. Tripp, H. M. Calkins, E. T. Allen, H. L. Miller, W. S. May, M. G. Khodigian, W. E. Mercer, J. A. Cheever, J. H. French, C. E. Kimlin, H. L. Springsteel, D. C. Anderson, J. A. Newton, Mrs. E. D. Yard.

SLUMP IN FOOD PRICES

Some conception of the effect which the slump in food prices will have on the buying power of producers may be obtained by remembering that the total value of corn, potatoes and cotton was estimated at about \$5,000,000,000; that corn is now down more than 50 per cent, potatoes 40 per cent and cotton 50 per cent.

Eight hundred million spools are manufactured in Maine mills every year. Skilled workers and complicated machines turn the product out at the rate of a spool a second. The value of the product amounts to \$1,000,000 annually.

London has a squad of motorcycle policemen.

STARTS CAMPAIGN

LONG BEACH IS ACTIVE FOR
INCREASE IN BUILDING;
GLENDALE IS BUSY

Long Beach, which had almost \$11,000,000 worth of building last year, with more than a million several different months, dropped to less than half a million in December. This was so disturbing to the city's pride that a campaign to "restore confidence and stimulate building" has been inaugurated by an organization formed by contractors, bankers, realtors, dealers in materials, and others.

With the promise of stabilized lower prices on lumber and other material and a possible recession from the abnormally high prices demanded by some classes of labor the Long Beach organization is reaching out for another phenomenal year of building.

Satisfactory Showing Here

While Glendale citizens would be glad to see a return to the half million a month record of last midyear, they are not disturbed by the fact that it is much less than that amount, realizing that for a city the size of Glendale, a sum in excess of \$100,000 is very satisfactory for a mid-winter month's building.

Glendale's amazing growth has not at any time been on the boom order, but has been a consistently healthy increase in the number of homes and business buildings, yet always far behind the actual demand and there will be no let down of building activity in the months just ahead.

HELPS STUDENTS

OPERA IS LABORATORY FOR
YOUNG AMERICAN, BULLETIN
BY SOCIETY SHOWS

The opera as a laboratory for young American students of geography is suggested in a bulletin of the National Geographical society just issued.

"Woman has called upon land and sea, the birds of the air and subterranean channels of the earth to yield up their treasures for her adornment at the opera.

Powerful birds on a South African farm yielded their wing and tail feathers for the gaily-colored fan she stirs lazily, the society said, and a magnificent jungle beast of India or the Congo trumpeted his death cry as he yielded his tusks for the slender ivory handle.

"Carelessly tossed aside lies the luxurious wrap," the article said, "The hundred or more of little eighteen-inch dark brown animals required to make this coat tempted trappers into difficult and dangerous enterprises on the frozen areas of northern Russia and Siberia. The fragrance that intrigues your senses is probably the distilled petals of roses grown in fertile valleys of Bulgaria.

Chinaman Sheds His Queue

"A Chinaman in Shantung shed his queue to furnish the material for the net that holds the coiffure in unblemished undulations, and a smelly stockyards of Kansas City or Chicago gave from its refuse heap that unobtrusive bone hairpins might hold the smooth coils in place. The slow and sure tortoise furnished the beautiful ornament of her hair.

"The ropes of gleaming white pearls that caress her throat were probably gouged from the hearts of the huge thick-shelled oysters of the South seas, Australia, Philippines and Burma or from the small thin-shelled ones of Venezuela, Japan, Persia and Ceylon. The platinum clasps came from Colombia and the diamonds which stud it from Brazil or South Africa, to be polished by the diamond cutters in Antwerp, Amsterdam or Bruges. The tiny jeweled watch on her wrist had the 175 pieces in its tiny 'insides' made by a Swiss workman whose skill was so great that he made no mistake in fitting in screws which to the unpracticed eye resemble dust particles.

In Looms of France

"The soft lustrous silk of her gown acquired its shimmer in the looms of Lyons, France, which prepares about one-third of all the raw silk produced in or brought to Europe. The lace with which the artist-modiste varied the fabric probably grew under the hands of diligent peasant women in the Vosges mountains, or in the cellars of a rain-soaked Belgium dwelling.

"The silver buckles on her pumps were hammered by an artisan from raw material gleaned from the mines of our own Rocky Mountains or Great Basin states, or from Mexico, which for many years produced more than a third of the world's output. But the pumps, most likely, were made in Massachusetts and the silk stockings in Wisconsin."

OTHER METHODS ARE NEEDED

It is estimated that 50,000 of the 175,000 children brought before courts in the United States in a year should have been handled by some other method.

HOSE IGNITES FROM FRICTION

In a recent hose test in Boston the water rushing through at a tremendous pressure resulted in the hose igniting from excessive friction caused by vibration between two cotton jackets.

In nearly one-half the gas plants in the country gas is manufactured from oil.

Art in Photography

There is more to modern artistic photography than merely posing the subject and making the exposure.

We feature real photographic art.

We make portraits, not merely photographs.

LEARNS IN NEWS

E. H. FANNCE OF LEE, MASS.,
RENEWES SUBSCRIPTION TO
BE INFORMED OF CITY

Writing from Lee, Mass., E. H. Fannce renews his subscription to The Evening News. His letter follows:

"Editor The Evening News:—Please renew my subscription to your interesting paper. I have learned a great deal about your lively town from its columns.

"Glad you are to have such a Chamber of Commerce as is planned. Addressed a letter to it four weeks ago asking for information concerning Glendale but received no reply. You need a new one, all right!

"With continued interest in your city.

"Very truly,
"E. H. FANNCE."

SEEKS BEST MAN

GERMAN AUTHORITIES STRIVE
TO PICK OFFICIAL WHO
WILL PLEASE U. S.

BY CARL D. GROAT
United Press Staff Correspondent
BERLIN—Business man, economist or glad hand?

German authorities mulled over those three classes today in considering possibilities for the next German ambassador to the United States. High hopes were expressed that peace between the two nations will be declared shortly after the new American administration begins to function. Germany wants to be ready for an appointment so that relations may be resumed as soon as possible.

Nations previously resuming ordinary relations with Germany have received business men as ambassadors from the former empire. Berlin has drawn heavily on the big concerns at Bremen and Hamburg for her representatives. One of the most commonly mentioned names in connection with the Washington appointment is that of Director General Heineken of the North German Lloyd company.

Suggests Several Professors

Heineken resigned from the company to prepare for the appointment but later asked that his name not be considered. Later the foreign office sought to induce him to reconsider.

The success of some German professors in bringing about good feeling in other countries has led to the suggestions of several names. The men talked of most frequently are known to have had pacifist views and to have had no connection with the old regime.

A wealthy man probably will be named when the time comes. The pay under the present conditions is exceedingly small and the appointee must accept a portion of his remuneration as the glory accruing to the office.

The American who comes here as ambassador will find conditions far different from those surrounding James W. Gerard, the last head of the embassy here.

Social Side Is Missing

There is no brilliant court life now. In fact the social side will be almost entirely missing. President Ebert entertains occasionally, but in a very simple way with none of the lavish decorations and exotic dishes which marked the Kaiser's banquets. Among the diplomats there also is lacking the customary social life of a European capital. Most of the men are swamped with work.

The American representative will be especially busy. The American mission has been conducting many investigations and compiling data. However, when the ambassador arrives he will find many problems confronting him and requiring business ability and diplomatic skill.

ITALY RECOGNIZES MEXICO

MEXICO CITY—Italy has extended formal recognition to the Mexican government in a letter delivered to the foreign office from King Victor Emmanuel.
